LEGEND:

COMPLIANT

NONCOMPLIANT

REDEVELOPMENT

Currently there are 47 branches throughout 5 regions

Region 1 = 8 branches

Region 2 = 12 branches

Region 3 = 9 branches

Region 4 = 9 branches

Region 5 = 9 branches

Compliant branches = 25 branches

Noncompliant branches = 20

Redevelopment = 2

The universal aspect of noncompliance is human – missing officers and members.
Second reason missing paperwork – which is understandable from the snafu in January

Compliance equation:

15+ members, 1+ institutional member, annual activity report and financial report filed yearly, 5+ officers, host/attend a minimum of 3 programs – especially within the target dates: February, September and December.

Solutions: hold a branch membership drive among current and future at large members – who will join to participate in the conference. Through connecting with a branch – it is possible at large members will retain connection and interest in the Association going forward. Second solution – fleece the current elected officers without branch affiliation and ask them to join a branch to assist in attracting members to the branch.
